Financial Policies

We strive for you to have an excellent experience at our clinic. Customer service and quality of care are our top priorities. In order to achieve that goal, we want you to be fully informed about our policies.

To keep our fees reasonable, we require full payment at the time of service for all office visits, supplemental testing, clinical supplies, medications, and any treatment performed at our clinic.

Our providers do not participate in and are not affiliated with any insurance companies.

Dr. Sambunaris & Associates operates on a fee-for-service basis. This policy protects your privacy to the highest possible degree, allows greater flexibility in developing a plan of treatment with you, allows our team to spend more time with each patient, and optimizes accessibility to our staff and appointments. Many of our patients find this approach preferable. Payment by cash or credit card is required prior to receiving services. For credit cards, the owner of the account must be present in the office at the time of use or have a verified card on file and a signed authorization form. The office does not accept checks.

No refunds will be given for the services rendered, including for the deposit placed on the initial diagnostic visit. Accounts must remain current to maintain ongoing treatment or formal termination will be pursued.

Most patients who have insurance can obtain "out-of-network" reimbursement for fees paid, particularly those with PPOs. Following your appointment if requested, you will receive a receipt or a "superbill" for your visit which will contain procedural and diagnostic codes. Patients are responsible for submitting this information to their insurance companies for direct reimbursement. Each insurance plan has a different policy regarding reimbursement rates. You should check with your health insurance provider on their out-of-pocket network policy & reimbursement rates.

We reserve the right to change fees and/or policies without notice.

Fees

Fees vary according to the time you have spent with the provider, the treatment provided, and the complexity of your needs. *Effective February 01, 2024:*

- New Adult Patient Evaluation: \$575.00 (a non-refundable 50% deposit is required at the time the appointment is secured).
- Adult follow up appointment / medication management: \$200.00
- Adult follow up appointment / medication management every 3 months: \$250.00
- Adult follow up appointment/ medication management every 6 months: \$300.00
- Appointments cancelled with 24 hour or more notice: No charge.
- Appointments cancelled with less than 24 hours-notice: \$75.00
- Same day appointment requests: Additional \$100.00
- Emergency refill (weekday due to No Show or Missed Visit): \$75.00
- WEEKEND & HOLIDAY REFILL REQUESTS: \$350.00
- Ketamine: Varies depending on the treatment plan, please call the office directly for information.
- Same day ketamine appointment requests: Additional \$100.00
- Saturday Ketamine Appointment: \$500.00
- Suboxone / Buprenorphine induction: \$750.00
- Suboxone / Buprenorphine medication management: \$200.00 per visit
- Suboxone / Buprenorphine lost meds or early refills: \$100.00

**All new patients MUST complete an evaluation appointment to become a patient.*

Above fees are only for office visits and do not include other treatments, supplements, labs, or any other supply or service. To keep our fees reasonable, we require full payment at the time of service for all office visits, supplemental testing, clinical supplies, medications, and any treatment performed at our clinic.

Other policies

Primary Care

Patients should obtain and maintain a primary care physician for any non-psychiatric medical emergencies and for their routine medical needs. We do not manage non-psychiatric medicines or provide refills of these medications.

Our clinic does provide an on-call after-hour service, but we do not provide emergency medical service or admit or care for patients in the hospital.

Phone inquiries

All phone inquiries, including medication refill requests, will be responded to within 48 hours. If you need immediate response or medical attention, please do not email us. Please call the office directly for urgent needs.

To protect patient confidentiality and to provide the highest level of patient care possible, we do not provide or exchange clinical information by email. Please call the clinic to discuss any clinical or administrative needs.

Phone calls and telehealth

Phone calls with the physician requested by patients are considered telehealth visits and are charged at regular office visit fees. Our cancellation policy applies to telehealth appointments.

Letter and correspondence

A fee starting at \$150 will be charged for forms completed for work, school, insurance companies, other physicians, or other purposes. The price may vary depending on the time involved in completing the request.

Prescriptions

NEW prescription(s) or dose adjustments require an office visit, with no exceptions. We ask that routine appointments are scheduled ahead of time to avoid a delay in prescription renewal. You are responsible for ensuring continuity of treatment, so we ask you to be in charge of your prescription schedule. Please allow 48 business hours to complete refills requests.

If you leave a message on our answering machine after hours regarding a medication refill, please provide the following information:

- Your name and date of birth
- Exact medication name (including suffixes such as “XR”, “ER”, or “CR”)
- Medication strength (mg)
- Medication frequency (how many tablets, how many times per day)
- Name and phone number of your pharmacy.
- Your phone number
- The number of pills you currently have remaining

Cancellations

Your scheduled appointment time is reserved exclusively for you- we do not double-book or over-book our schedules like many other medical and psychiatric offices. We therefore ask that you provide as much notice as possible should you need to change an appointment, by calling our office number 770-817-9200. As outlined in the payment schedule above, cancellations with less than 24 hours' notice will result in a \$75 fee.

Students and Fellows

Our clinic/facility is a teaching facility and is affiliated with several academic institutions. Occasionally, fellows, residents, interns, medical, pharmacy, nursing, and/or other healthcare professional students may observe or assist in your care and treatment under the supervision of a physician if you give verbal consent. Student interns receive intensive ongoing guidance, evaluation, and education in providing excellence in clinical skills to you and your family members. By working with a student professional, you receive the benefit of a comprehensive and clinically experienced team working together towards addressing your health concerns.

Refund policy

As with all mental health treatment, there are no guarantees in results or outcomes. We genuinely strive to provide the best quality of care possible.

No refunds will be given for the services rendered, except in case of accounting errors. Accounts must remain current to continue ongoing treatment. While we stand by our policy as written above, we also want to understand how we can best serve you; please contact our team at 770-817-9200 with questions or concerns.

Dr. Sambunaris does not engage in psychotherapy and therefore does not participate in the "one-hour psychotherapy session" approach that you might expect with a therapist. If you require the help of a therapist, we can arrange a referral to one of our associates.

Medical appointments with our physicians, both diagnostic evaluations and follow-up visits, are performed with the utmost of care to accurately diagnosis and treat our patients. There may be a time when a patient is unhappy with the diagnosis provided or the treatment plan recommended, which should not be interpreted as a lack of skill or effort by the provider.

If you are unsure about the fit between you and any of our providers at Dr. Sambunaris & Associates, we encourage you to access full complement of online resources we have created to ensure you have found a good fit for your needs including our website, social media sites and public review platforms such as Google or Psychology Today.

Dr. Sambunaris

& a s s o c i a t e s

Termination

While we do not expect this to be the case, there are rare occasions when it is necessary to terminate the physician-patient relationship. Termination of treatment may occur at any time and may be initiated by either the patient or the doctor. Reasons for termination by the physician are generally due to patient non-compliance with treatment, missed appointments, and maltreatment or threats towards the physician or office staff. Our medical team will continue to provide refills and emergency care for 30 days as dictated by law after a notice of termination to allow sufficient time to find a new physician.

We trust that you understand the necessity for these policies and sincerely thank you for your cooperation. If you have any questions, please do not hesitate to ask.

I _____ hereby give permission for the team at Dr. Sambunaris & Associates permission to speak with _____.

Authorization for Release of Medical Information

This form, when completed and signed by you, authorizes me to release protected information from your clinical record to the person you designate.

I authorize Dr. Sambunaris & Associates and/or his clinical staff to release/obtain:

_____ My medical record

_____ Verbal information related to my treatment

Patient's name: _____

Patient's DOB: _____

This information should only be released to/obtained from:

Name: _____

Address: _____

Telephone: _____

Fax: _____

This authorization shall remain in effect until one calendar year from the date of signature or until I revoke this authorization in writing.

You have the right to revoke this authorization, in writing, at any time by sending such written notification to Dr. Sambunaris & Associates' office address. Your revocation will not be effective to the extent that action has already been taken in reliance on the authorization, or if this authorization was obtained as a condition of obtaining insurance coverage and the insurer has a legal right to contest a claim.

I understand that information used or disclosed pursuant to the authorization may be subject to redisclosure by the recipient of your information and no longer protected by the HIPPA Privacy Rule.

PATIENT NOTIFICATION OF PRIVACY RIGHTS

The Health Insurance Portability and Accountability Act (HIPPA) has created new patient protections surrounding the use of protected health information (PHI). Commonly referred to as “medical records privacy law,” HIPPA provides patient protections related to the electronic submission of data, the keeping and use of patient records, and the storage and access to health records. HIPPA applies to all healthcare providers, including mental health care providers. Healthcare agencies throughout the country are now required to provide patients with notification of their privacy rights as it relates to their healthcare records.

HIPPA laws and regulations are extremely detailed and confusing without formal legal training. The Notice of Policies and Practices of Dr. Sambunaris & Associates to Protect the Privacy of Your Health Information will inform you of your rights in a simple and comprehensive fashion. If you have any questions about any of the issues discussed in this document, please do not hesitate to ask for clarification.

We are required to obtain your signature indicating that you have reviewed a copy (you may have a copy if you request one) of the Notice of Policies and Practices of Dr. Sambunaris & Associates to Protect the Privacy of Your Health Information, which provides a detailed description of the potential uses and disclosures of your protected health information, as well as your rights on these matters.

I understand that I have the right to review this document before signing this acknowledgement form, and that I may, at any time, ask questions about or seek clarification of the matters discussed in this document.
